

I am writing to support K-LOVE. I am asking to not let the Low Power FM (LPFM) take priority over this current FM station. K-LOVE is a vital part of my life and the life of my family. Today when it is difficult to find "family friendly" radio and TV, I would like to keep that option with K-LOVE. K-LOVE offers an alternative that is vital to our community. Many don't know where to turn for help in time of crisis. K-LOVE offers an on-line as well as 800 number for people to are in need to seek help. It partners with local charities to supply information where locally people can seek help. There is no other stations like K-LOVE locally. It provides contemporary Christian Music. Our children need this station as they are not inclined to listen to more conservative music other stations might provide. Almost certainly any station that might take priority over K-LOVE could be found anywhere. Most areas have several stations that play the same style of music therefore giving several choices already. Contemporary Christian music is not played on several stations and would not be available to this community if you allow the LPFM stations to take priority over K-LOVE. Thank you for the opportunity to have input on this subject and for taking my comment into consideration.
